Does Anyone Know Them

To 1903 Edith May and Robert Walter, children of R. W. McCormick, now of Peace River-Crossing, were adopted by John McPherson Scott, 412 McDermitt Avenue, Winnipeg. Mr. McCormick has not seen his children for 16 years, and is unable to locate them. He has asked the assistance of the local police in finding them. Five years ago Mr. McCormick got word that his daughter had gone to Kenora, Ont., and his son to some place in the Rocky Mountains to start a chicken farm. Edith May McCormick was born March 22, 1891, and would be 24 years of age now. Robert Walter McCormick was born 1886, and would be 29 years of age. We have been asked to give publicity to this case, and any one knowing of the whereabouts of one or both of the persons, would be helping to reunite this family by communicating with The Enterprise.

Cabinet Has Ruled Out Prohibition

London, April 14.—Several more cabinet meetings will be required, according to the Times, before the government is able to place definite proposals before the country for dealing with the drink problem. But it already is possible to indicate in what direction the ministers are moving.

"They have ruled out total prohibition as impracticable," the Times continues, "and so far as the discussions have gone favor the following measures:

"First—Prohibition of wines and spirits; second, encouragement of lighter beers by compulsory reduction of their strength; third, further restrictions in the sale of intoxicants in military areas, and in districts in which munitions of war are being manufactured."

British Navy and Canadian Railway Expansion

The present conflict in Europe has demonstrated beyond the possibility of doubt that the maintenance of Britain's superiority at sea, and the expansion of the wheat areas in British Dominions, have been linked together as basic factors in the consideration of plans for Imperial offense and defence. The lawmakers in London, as a matter of policy, have allowed nothing to interfere with the building up of an all-powerful navy, and they have steadfastly ignored the protests of Englishmen who have contended that Great Britain would be in an impossible position if a war should develop with a powerful maritime power. There were numerous men in England who believed that in the event of an important European struggle involving Great Britain, "the hunger of London would dictate terms of peace." But the Admiralty were convinced that the sea power of Britain would keep her the dominant power for foodstuffs. The lands in the British Isles which might have been devoted to the growth of more wheat were left as before, and the investors of Britain, by placing their funds in the bonds of railways in Canada, in South Africa, in Australia and in New Zealand, where vast stretches of fertile country remained to be opened up, encouraged the production of a steady supply of foodstuffs which might be called upon in case of emergency. The under-water craft of Germany have failed to threaten the shipping of Great Britain. Her ships come and go almost as they please. And the resources of wheat lands, in themselves many times the area of the British Isles are available for the need of the people of Britain.

In facilitating the expansion of the various railway companies in the Dominion during the last thirty years, the successive governments, federal and provincial, have enabled Canada to take up the burden of a greater production in this year of the Empire's peril. Canada is measuring up to her advertised destiny as the "granary of the Empire," or, more emphatically still, "bread basket of the World." The prospect of leaders of thought for three decades are on the verge of fulfillment. The large exportable surplus of the wheat fields in Canada will go to feed a fair proportion of the dependent millions of England, and probably, the war-harassed Belgians as well. The railway lines which have been constructed east and west and north and south, and which the Empire has used in her present position, possible. Without these essential traffic arteries the Dominion would have been merely a helpless spectator while the greatest war in history rumbled through to a conclusion. Canada's most important contribution to the cause of Empire is in wheat and flour and bread.

The bulk of the supplies of Canadian wheat for export are drawn each year from the wheat fields of the prairie provinces. The total supply may be computed by a study of the carrying of the railways. During the crop year 1913-14, the Canadian Northern alone handled from the territory served by its western lines, 47,285,000 bushels. Estimating the increase this year at 20 per cent, C. N. R. should haul out approximately 57,000,000 bushels of wheat from the provinces lying between the Great Lakes and the Rocky Mountains. That quantity of wheat, converted successfully into flour, and into standard loaves of bread, would feed Greater London, with its estimated population of 7,232,063, for more than four and a half years.

According to the millers, a barrel of flour, 100 pounds, is made from 4 1/2 bushels of wheat, and, according to the bakers, 18 1/2 standard loaves of 94 ounces each, are made from one barrel of flour. The anticipated carryings on the Canadian Northern this season, then, represent 12,611,111 barrels and 2,338,737,137 loaves of bread. If this were divided in London, each individual in the Imperial City would receive 325 loaves. If you divide the population of the capital into families of three, each family would be provided with 975 loaves. Allowing a family would extend the foodstuffs over 244 weeks, or more than four and a half years.

There is no need to carry the illustration further. So long as British holds command of the seas, the available supply of foodstuffs from Canada alone should suffice to overcome the handicap her critics maintain she imposed upon herself by producing but a quarter of the wheat she annually consumes.

Notice To Dog Owners

Dog Taxes must be paid or the animals destroyed. If you value your canine you should get busy and protect him. The police have orders to destroy such animals unless taxes are paid on them.

Military Honors To Dead Soldier

Full military honors were accorded the late bombardier Peter "Tommy" of the 20th Battery C.E.F., at Lethbridge on Saturday when the funeral service was held prior to the remains being sent east to his home in Ottawa for interment. An escort of 100 men in charge of Sergeant Perry formed the procession preceding the remains on a gun carriage, while hundreds of citizens were present at Knox church to pay their last respects. The floral offerings were as follows: The Officers of Frank, Pillon, O. R. C. No. 542, emblem; B. Sub, 20th Battery C.E.F., shield; Lethbridge Lodge No. 39, A. F. & A. M., square and compass; 20th Battery C.E.F., C.E.F., broken wheel; Alexander Galt Chapter 131 I.O.E., spray; Miss Violet Ingham, spray; Mrs. C. and Don McKillop, anchor; Bro. of R. T. Cranbrook, wreath; Sikhlika Chapter No. 158, Royal Arch Masons, spray; Mr. and Mrs. J. M. Thomas, spray; Mr. and Mrs. Robert Silver and family, Frank, spray; Mr. and Mrs. S. H. Smith, spray; Mr. and Mrs. C. H. Devine, spray; Mr. and Mrs. H. Fitzsimmons and Helen, spray; Miss Nora Lewis, Blairmore, spray.

Alberta Estray Law

The Alberta Estray Law prescribes that the party who takes up an estray animal must, immediately on notifying the treasurer nearest to his place to come out and examine the animal and take a copy of the brand, if any, on the animal. Then an advertisement must be inserted in the nearest local paper and also in the Alberta Gazette, and until the law is complied with the holder of an estray cannot collect any fee for his trouble or feed. Prompt action must be taken, the law being very strict in this matter. The brand reader is entitled to a fee of two dollars for each animal they examine and mileage to the extent of 10c per mile for the first ten miles. The cost of the advertising and the reading of the brands is a charge against an estray and must be paid when the animal is claimed. The party holding the animal is responsible for all charges until it is sold or redeemed by the owner. No charges for feed allowed between the 1st day of April and the 15th day of November. From November 15th to April 15th, a fee of 10c per head per day is allowed for horses and cattle during that period on which the notice is required to the owner of the estray.

Cheques to Be Stamped

The new stamp duties became effective Thursday. Particulars of the rules as they apply to letters and postals have already been outlined. All cheques drafted, bills of exchange and receipts must bear a two-cent stamp, either an ordinary postage stamp or the special stamp. Stamps must be affixed to cheques at the time they are signed—the cheques will not be legal tender otherwise and the person issuing them will be liable to a heavy penalty in the event of non-compliance.

The rule with regard to receipts applies to savings bank withdrawals forms the same as to ordinary cheques. There is a misapprehension as to the definition of "receipts," many persons being of opinion that the new law will affect all commercial dealings. This is not so. The stamp regulations apply to bank transactions only.

Girls, Attention! A Divine Wants A Wife

An unnamed Episcopalian minister giving his address as Barrie, Ontario, wants a wife. He has written Mayor Mitchell, of New York, and Mayor Kribs, of the other metropolis—Blairmore, and presents a formidable list of references. These include the endorsement of the Episcopalian Bishop of Ontario, the Princess Frederika of Brunswick and Luxemburg, and several other notables. The minister would like a wife who is a well-bred, cultured woman, healthy, cheerful and preferably not over thirty years of age.

The Lethbridge Herald states that when you go into a hotel in Alberta from now on you will find a rope in every sleeping room. This is not a suicide suggestion. The rope is provided for fire protection, and is now required by the statutes of the province. The Lethbridge U. G. T. council was very active in getting the statute placed on the books.

The drink question is now more
prominent in the British Isles than
the European hostilities.

No person may establish a wire
less telegraph station in the British
Isles or on board a British ship in
home waters, except under a license
granted by the postmaster general.

The temperance meeting at the Odd-
fellows' hall on Friday night was poorly
attended. While Mr. Peck is a good
speaker, it cannot be said that his
lectures are productive of results in the
interest of the prohibition campaign.
They fail to reach the desired mark, and
are generally delivered to the total ab-
stainers who know practically nothing of
the drink traffic, and whose influence,
if they have any, has little or no effect
upon the ordinary drinker.

Whatever success may attend the efforts
of the prohibitionists, we fail to see how
anything can be accomplished through
the medium of lectures, which contain
too much of the "old, old story" that
has been out and dried for years and
which only arouse the hearer to disgust.
An effort should also be made to display
pictures of actual conditions rather than
cartoons of conditions that could not
possibly exist.

The second and third degrees
will be conferred at the regular
meeting of Blairmore Lodge 68,

Arbor Day in Canada

In Canadian schools it has been the
custom for years to observe Arbor Day
in a greater or less degree. This custom
should receive increased attention from
educational bodies and the general pub-
lic, for the country has a great need for
the planting of more trees and shrubs,
both in school and residential grounds.
Canada is so dependent upon her forests
that any measure which may be taken
to extend the knowledge of the pupils
respecting trees and the need for their
protection will serve a useful purpose.

In each of the provinces, with the ex-
ception of British Columbia, provision is
made for the celebration of Arbor Day.
In most provinces it is a public school
celebration only, the regulations requiring
its observance by the planting of
trees and shrubs in school grounds. It
should be made a public holiday, instead
of being confined to the schools, and the
scope of its observance should include the
annual clean-up, particularly as it is
usually celebrated early in May. In this
way, more general interest would be
aroused in the work, and greater results
secured, from an arboral as well as an
artistic and sanitary standpoint.

Don't wait for the sanitary inspectors to
give you notice to clean up your back
yard and burn the rubbish, but do it at
once. The filth that has accumulated
during the winter should be removed so
the spring rains can wash away what can
not be gathered up. See to it at once
and make the work for the inspectors
pleasant and easy.

An exchange says:—Blind to the
plainly obvious fact in our economic life,
most have been stumbling along, trying to
solve the heavy problems of the country's
prosperity without taking stock of the
amount of material need in a woman's
wardrobe. There have been inklings of this
trouble all along, but the tight skirt has
not heretofore been brought home to us
as it were. In France the government
pleaded with the makers of women's
fashions to widen women's skirts so that
the mills could run full time and give
employment to thousands of unemployed.
Not until fashion was ready, however,
did the ameliorating device come forth.
The tight skirt is doomed and the era of
the full skirt is upon us. Prosperity
will smile upon our broad land and re-
frainable trade conditions caused by the tight
skirt will no longer prevail. Thus, in
the everlasting circle of things, is industrial
salvation at hand.

War and Drink

Whatever else the war may or may not
have accomplished, it has certainly
thrown public opinion in one direction,
and that is to the contemplation of the
effect of the liquor traffic on the national
spirit of efficiency and morals. Russia
was the first, country to make the step,
declaring the prohibition of all vodka,
and that step involves more than is
generally known, for the effect also restricted
the sale of other liquors and of beer.
France followed shortly by restrictions
on the national police, abstemious.

The result in both cases has been that
a marked efficiency has shown itself,
and in Russia, to quote Mr. Lloyd George,
the increase has been from 20 to 30 per
cent.

England, although endorsing the ac-
tion of her allies, has so far made no
step in the direction of prohibition, but
during the past week the question has
come well to the fore by the remarks of
Lloyd George about the drink question
in relation to carrying on the war. His
suggestion of prohibition for the term of
the war, striking at the root of the
trouble, as he put it, has, contrary to the
general expectation, met with a marked
approval from the general public and the
Liberal and Unionist papers. The realiza-
tion, by the people, of the menace to
themselves that there is in the present
drink situation in England has been
brought forcibly to their notice, and
they see that no matter how much one
may argue about the freedom of the in-
dividual in regard to what he wants to
do, when the nation stands in the posi-
tion that also does today, any individual
excess is not too much when it will
help the cause to more speedily and suc-
cessfully issue.

The worker at home who is supplying
the necessities for the conflict is in a posi-
tion that also does today, any individual
excess is not too much when it will
help the cause to more speedily and suc-
cessfully issue. The worker at home who
is supplying the necessities for the conflict
is in a position that also does today, any
individual excess is not too much when it
will help the cause to more speedily and
successfully issue. As much is required of
him as of his brother soldier who is de-
pendent upon him and he is in the same
position that also does today, any individ-
ual excess is not too much when it will
help the cause to more speedily and suc-
cessfully issue. In other words,

the more the worker at home neglects
his duty for the sake of drink, the
chances of loss to the country, through
drinks, and if the worker is not suffi-
ciently strong to be able to master his
own inclinations, if only for a time,
then it is the duty of the British govern-
ment towards the Empire to take the
matter in hand and impose such re-
strictions as are necessary for the safe-
guarding of the Nation and its defend-
ers.—E.S.

We Things

The Grassy Lake Gazette of April 8th
says:

"After due consideration we have de-
cided to make a statement as to our
position in regard to the 'prohibition
campaign.' Careful study of the bill on
which the people of Alberta will vote
next July compels us to oppose it. We
do not consider that it is a bill that
should be written into the statutes of
this province. It is likely, if passed, to
do more harm than good.

Experience and investigation have
convinced us that legislation is not the
proper method for curing or preventing
such evils as intemperance drinking.
Only by education will true temperance
be brought about. There is too much
ignorance about it, already and not
enough 'should not.'

The person who thinks that the argu-
ments on this question of prohibition are
all on the side of the so-called 'temper-
ance party' is badly mistaken. There is
no justification for the assertion that it
is wrong to take a drink of beer, whiskey
or wine. Intemperance drinking is wrong
just as all intemperance is wrong. Since
it is not wrong to drink in moderation
there should be no law compelling a
man to abstain from even moderate
drinking.

The world is certainly improving by
education and there is less drunkenness
today than there was forty years ago.
Education can cure the evil more surely
and safely in time than can legislation.
Our laws regulating the sale and con-
sumption of liquor have been greatly im-
proved within the past few years and
can be further improved in the future.
They are not by any means perfect yet,
but we fear an attempt at prohibition
will bring about a much worse state of
affairs than exists under the present
system of regulation.

From a business point of view the loss
suffered by the province—\$221,441.26
in 1914—and to towns and cities, must
be considered, and the thousands of dol-
lars invested in hotels that will be lost
without compensation should be con-
sidered.

We do not propose to enter a contro-
versy on this question that each voter
should decide for himself, and having
explained thus briefly our position we
intend to keep quiet and let every man
decide for himself how he should vote.
Only we would urge him to carefully
read the bill on which he is voting, and
study this important question from all
sides so that he will be able to vote
intelligently and not on impulse.

The Gazette will endeavor to give its
readers the news of the campaign im-
partially, but arguments and appeals for
or against the bill will be published only
as advertising matter at the regular
rates."

The Difference

"When the Greater had made all the
good things, there was still some dirty
work to do, so He made the beasts and
reptiles and poisonous insects, and when
He had finished He had some scraps that
were too bad to put into the rat-snares,
the hyenas, the scorpions and the snakes;
so He put all these together, covered it
with suspicion, wrapped it with jealousy,
marked it with a yellow streak and called it
a KNOCKER.

"This product was so fearful to con-
template that He had to make something
to contrast it, so He took a sunbeam
and put it in the heart of a child, the
brain of a man, wrapped these in civic
pride, covered it with brotherly love,
gave it a mask of velvet, and a grasp of
steel, and called it a HONESTER; made
him a lover of fields and flowers and
manly sports, a believer in equality and
justice, and ever since those two were,
mortal man has had the privilege of
choosing his associates."

Things That

Never Happen

Editor Bartlett of the Blairmore En-
terprise, mounts to the extreme heights of
gloom when under the heading of
"Things That Never Happen," he writes:

"Every business man in Blairmore is
a firm believer in advertising, as may be
seen from the pages of this paper. Last
year they paid full price for advertising
each month, and presented the editor
with a fat check for a Christmas box as
well. All their job printing passed
through the hands of the local printer,
for which the latter is very thankful.
At the beginning of 1915 every subscriber
came around to the editor's sanctum to
pay up a year's subscription in advance
and incidentally to urge upon us to
boost for local patronage, pleading
themselves not to send a nickel to Tim
Eaton or any other foreign establish-
ment."—Calgary Albertan.

ADVERTISING!

"ADVERTISING is the
education of the pub-
lic as to who you are, where
you are, and what you have
to offer in the way of skill,
talent and commodity. The
only man who should not
advertise is the man who has nothing
to offer the world in the way of com-
modity or service."

—Elbert Hubbard

Advertise in The Enterprise

The War Tax

The Post Office Department, having
given notice a week or two ago, in con-
nection with the War Revenue Act, that
all letters and postcards mailed in Can-
ada for delivery in Canada, the United
States or Mexico, and letters mailed in
Canada for delivery in the United King-
dom and British possessions generally,
or wherever the two-cent rate applied,
should in addition to the regular postage
carry a one-cent stamp as a War Tax,
and also having notified the public that
such war tax, while it should be paid
preferably by the postage stamp, marked
"War Tax," could, if such stamp were
not available, be paid by an ordinary
one-cent postage stamp, is now issuing
further notice to the effect that postage
stamps may be used for the prepayment
of war duties on bank cheques, bills of
exchange, promissory notes, express
money orders, proprietary or patent
medicines, perfumery, wines or champagne,
as well as upon letters and post-
cards, postal notes and post office money
orders, the intention being to provide
facilities in those portions of the country
where excise stamps are not available.
This in view of the fact that postage
stamps may be obtained at all points
over the whole country, in many places
where there is no collector of Inland
Revenue and no Inland Revenue stamps
could be obtained, is a distinct conve-
nience to the public and no doubt will be
largely taken advantage of.

FOUNDED A CURE FOR RHEUMATISM

"I suffered with rheumatism for
two years and could not get any right
head to my mouth for that length of
time," writes Lee L. Chapman, Mas-
keton, Iowa. "I suffered terribly
from so I could not sleep or lie still at
night. Five years ago I began using
Chamberlain's Liniment and in two
months I was well and happy. I have
suffered with rheumatism since."
For sale by all dealers.

Remember the concert and dance
tonight. Do not miss it. Blair-
more is fortunate to have so many
exceptionally talented singers on
one night programme.
Old Linen.

First Payment

Of Compensation

Arrangements have been made whereby
the 1914 Collieries Ltd., will pay
over the first instalment of the com-
pensation, resulting from the mine disaster
of last spring, on June 1. The total
amount of compensation reaches close to
the quarter million mark, and the amount
paid in June will run into five figures,
since the agreement was reached between
the owners of the mine and the counsel
for the widows and orphans, the number
of names on schedule "A" entitling full
compensation of \$1800 has been increased
from 57 to 75, and it is believed full com-
pensation will eventually be paid to over
90 families.—Lethbridge Herald.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, in the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of ten years or more at an annual rental of 41 an acre. Not more than 2500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the District in which the rights are applied for, or to the nearest office of the Department of the Interior.

The application must be accompanied by a fee of \$5 which will be refunded if the rights are not granted, but not otherwise.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever surface rights may be considered necessary for the working of the mine at the rate of \$2000 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

CUGH MEDICINE FOR CHILDREN

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by all druggists.

Bellevue Happenings

Fred Padgett paid a business visit to Fernie this week.

Joseph Jordan has moved to the house owned by M. LaHoney.

Mrs. Joseph Fitzpatrick was a Pincher Creek visitor this week.

Bill Cole intends moving out to his ranch at South Fork this week.

W. Kelly, who was laid-up for a few days with lagrippe, is again at work.

Rev. F. T. Cook has been under the weather for the past week with lagrippe.

Walter Scott left for Fernie this week, where we understand he has secured a position.

Wallace Raynor and Frank Roseley were up from Pincher Creek on Sunday.

Some of the boys have started after the pig-skin this week at the old football ground.

Mrs. James McNeill was up from Pincher Creek during the week, visiting Mrs. W. Cole.

The vacant lots are the popular attraction at Bellevue now, and gardening is the order of the day.

Rev. Mr. Peck, of Claresholm, delivered a lecture on temperance in the local church on Wednesday night.

James, eldest son of Mr. and Mrs. William Patterson, went through a slight operation at the local hospital this week.

Miss Williams, who is attending college at Calgary, and who spent the Easter holidays at her home here, returned to Calgary this week.

Miss Murray, nurse at the local hospital, has gone to pasture new Miss Murray has been a resident of Bellevue for some time and made many friends.

Mrs. Hugh Alston, of Macleod, was at the Lyric theatre on Saturday night and gave the patrons a vocal treat. She will appear again on Saturday, the 18th. Don't fail to hear her.

Passburg Happenings

Mr. and Mrs. James Thompson and James junior, have been visiting their daughter, Mrs. T.H. Duncan, for the past few weeks.

Our new minister, Rev. Mr. Galbraith, from Montreal, arrived here on Friday, and preached his opening sermon on Sunday.

F. N. Fowler has boarded up the windows of his pool room and moved his tables to Blairmore, where he intends running a business in the future.

Quite a sequestration was caused here on Monday by the finding of the body of an infant in a box in the burying ground. The police took charge of the remains and are investigating the case.

William Sheffield received word this week that his brother had been killed at the front on the 11th of March. When war broke out he joined the Durham Light Infantry, and had been in the trenches since December.

The young lady who is taking a course in motor driving, received further instruction on Sunday. We understand that her whole topic of conversation just now is magneto, transmission, carburetors, etc., etc.

We don't know whether it was martial order, or whether it was just a fondness for masculine attire, that caused one of our young ladies to don the uniform of the 13th C.M.L. on Sunday and parade the street. We must admit she looked decidedly smart.

Mr. Peck, organizer for the prohibition party, held a meeting here on Sunday last. After the meeting was over he called on one of our young men who is prominent in labor circles, and offered him the position of local organizer. That individual, who, by the way, has never identified himself with the prohibitionists, promptly refused the job and in a very concise manner told Mr. Peck his views on prohibition.

Frank Happenings

Mrs. W. H. Hilton was a Fernie visitor on Saturday last.

Mr. and Mrs. John McDonald returned to Stettler on Sunday.

Mrs. H. Jepson has been spending a few days this week with Mr. and Mrs. Wardman at Burmis.

Congratulations are being crowded in on a local hotel guest, on his having taken unto himself a partner.

Eugene Schnurr, an old-timer around Frank, is acting as manager for the present of the Union hotel here.

We noticed one of the members of the local temperance committee rushing a can full of "Bock" on Saturday. Sure, even the temperance fight is a dry one.

Mrs. M. Murdock and son who had been visiting her parents, Mr. and Mrs. D. S. Howe for the past two weeks, returned to her home in Flanagan, B.C., on Friday morning.

Messrs. D. Fleming, E. Duncan, J. Murray, H. Beers, H. Colpitts and R. W. Thompson, went to Lethbridge to attend the funeral of the late P. Carriethers. They returned to town on Sunday morning.

Miss E. Lyle, formerly of this city, but more recently of Frank, returned to the city on Wednesday to take up her duties as stenographer in the office of Herchmer and Martin.—Fernie Free Press.

Evans Morgan journeyed to Fernie on Saturday last to represent Frank at the meeting of the Crows' Nest Pass league. Frank, Coleman, Michel and Coal Creek were represented. We understand that A. J. Carter, who is secretary of the local league, and Mr. McDonald, president, both of Fernie, will resign, so we would like to see both positions taken by men from this end of The Pass, where the majority of the teams are located.

Another suggestion, which has been talked of lately, is for the Alberta teams to play, and British Columbia teams to play, and then the winners to play home and home to decide. This would eliminate the great expense of travelling say from Bellevue to Coal Creek. The meeting was adjourned for one month and will conclude at Michel on May 8th, when we hope to see representatives from Bellevue and Hillcrest present.

Lime in Agriculture

One of the principal functions of the Chemical Division of the Dominion Experimental Farms is to attempt the solution of problems connected with the maintenance and up-building of soil-fertility.

Among the many valuable results so far obtained in these investigations is the demonstration of the vital part played by lime in the increase of a soil's productivity.

The subject is treated in an interesting and practical way in Bulletin No. 80 of the Experimental Farms regular series, by the Dominion Chemist, Dr. Frank T. Shutt, who discusses it under the following heads:

The nature of lime and limestone. The agricultural functions of lime and its compounds. Comparative values of lime compounds. The application of lime compounds.

The use and misuse of lime. Those interested may obtain a copy of this bulletin by applying to the Publication Branch, Department of Agriculture, Ottawa.

An Apology

On account of no marriages, divorces, births, deaths, rows, socials, fires or earthquakes occurring in Blairmore during the week, and because of our sore head inflicted by the cruel pen of the "clever" editor of the weekly periodical at Coleman, this week's issue of The Enterprise does not contain more than fifteen columns of local news matter—less than three times the quantity handed out to the readers of the Coleman Bulletin. Gee, but it's a tough problem!

Local and General

Fowler's pool-room and barber shop opened for business this week.

The Masonic grand-judges of Alberta will meet in its annual session at Red Deer on May 26th to 28th.

The second and third degrees were conferred by Crows' Nest Encampment at their regular meeting on Wednesday night.

Mr. and Mrs. Richard Stewart and son, of Owen Sound, Ontario, arrived on Wednesday on an extended visit to Mrs. Stewart's brother, D. A. Sinclair.

Sergt. Gresham came to town from Medicine Hat last week end to look after his son Rennie, who received an injury to his left hand by discharging a gun. Rennie was taken to the Hat on Saturday night where he will receive special treatment at the hospital.

The general opinion in Great Britain now is that the nationalization of the liquor trade is inadvisable and would create great problems concerning compensation, and it is likely the government will confine its efforts to stricter regulation of the liquor traffic.

E. F. Rahal is opening up a grocery store next door to J. Handley's cash store. Mr. Rahal was formerly in business at Hoerner, B.C., and his entire stock is being transferred to Blairmore. Mr. and Mrs. Rahal arrived here the early part of this week and have rented a residence from D. A. Sinclair.

A few weeks ago the town council was besieged by parties looking for employment or relief. Since then the council has succeeded in raising a small sum of money for relief work, and now we find several of those who put up pitiable tales of distress and who sought and received relief orders are refusing to work. In other parts of the province such cases are being placed in the hands of the mounted police, and unless those "won't work" take advantage of the present opportunity they may find a path leading to a free-board institution.

The following extracts from letters received from the head office will be of interest to all Red Cross workers, and should prove encouraging to those who are so generously devoting time and money to assisting the splendid work being done by the society. In regard to the work of the Calgary branch, Mr. Noel Marshall, chairman of the central council writes to the provincial secretary as follows:—"I know of no greater pleasure I could have than to be able to personally thank on behalf of the members of the central council, the people of Calgary for the great work their local branch has done. It must be very gratifying to your committee, who have worked so hard. Mrs. Plumptre, superintendent of supplies, Canadian Red Cross society, writes the provincial superintendent in regards to supplies forwarded from the Alberta provincial branch as follows:—"I can only repeat to you what I have said, I think, several times before; that there is no branch of the society whose work is more absolutely satisfactory to us than yours. It is a pleasure always to get a letter from Calgary."

A. Hood is building a store and ice-cream parlor on the Hood division at Hillcrest, and expects to open up shortly.

NOTICE Assessment Roll—1915

NOTICE IS HEREBY GIVEN that the Assessment Roll of the Town of Blairmore for the year 1915 has been prepared and is now open for inspection at the office of the Secretary-Treasurer of the Town of Blairmore from 10 o'clock in the forenoon to 4 o'clock in the afternoon every day which is not a public holiday, (and on that day from 10 o'clock in the forenoon to 12 o'clock noon), and that any taxpayer who desires to object to the assessment of himself or any other person must within thirty days after the date of this notice before his complaint in writing at my office.

DATED at Blairmore this First Day of April, A. D. 1915. W. JOYCE, Assessor Town of Blairmore.

A Gift to Belgium

Japs Present King Albert With a Big Sword

The Japanese have testified to their appreciation and admiration of King Albert of Belgium by the presentation of a magnificent ceremonial sword through the proprietor of a Japanese newspaper.

An inscription accompanying it declares it to be "a humble testimony to the profound reverence and patriotic sentiment of the Japanese people manifested in defence of both humanity and civilization."

This sword is an exquisite work of art and in perfect condition. The mountings of the hilt and scabbard are of gold elaborately chased and with crests in the shape of a crane, representing the Japanese emperor.

The blade was made in 1877 by a famous smith named Nakagawa Schichiyemon-no-toji Yashikan, who lived at Otsu, in the province of Ise, in western Japan, and died in 1888. The province of Ise is celebrated for having produced "good sword blades" and the sword is now the property of the Japanese emperor.

The sword was presented to King Albert by the Japanese ambassador in London, and was noted for its extraordinary sharpness.

Money in Sheep

Cornbelt Farmers Keep Breeding

While travelling through Europe, Professor Arthur G. Leonard of the Chicago Union Stock and Cattle Exchange, in studying with much interest the cornbelt farmers of the United States, observed that the cornbelt farmers were not only successful in raising sheep, but also in utilizing farm waste and manure in a money-making way.

He learned that these men were considered about the most profitable breeders on the farm. These men were not only successful in raising sheep, but also in utilizing farm waste and manure in a money-making way.

To always use
Old Dutch for my complexion

MADE IN CANADA

Russians Had Shod the Poles

Mr. George Kromm, the well known

Gibsonian traveller, tells a story of

the Russian having a dozen Russian

peasants, and exhibiting to them a

steel shoe of natural size.

It had been sent to him to show

the delicacy of the smith's work.

He asked them if any of them could

duplicate that steel shoe.

They appeared a day or two later,

and with low bows presented to

their monarch this shoe, but

without the expected duplicate.

"Ah!" said the Tsar, "you couldn't

make another. I knew you couldn't."

"Will your majesty deign to look at

the shoe through a magnifying glass,"

replied the peasant.

A glass was brought and upon

close inspection it was found that

the Russian metal workers had shod

the German shoe with steel shoes.

Renewed Vigor
In Old Age

This Letter Brings a Message of

Cheer to the Aged—Results of

Using Dr. Chase's Nerve

Food

New, rich blood is what is most

needed in the declining years to keep

up energy and vitality. That Dr.

Chase's Nerve Food is a wonderful

help in maintaining health and

prolonging life is attested by the

word of this letter.

Mr. Stephen J. Lead, North Tryon,

P.E.I., writes: "At seventy-five years

of age my heart grew weak and

very irregular and weak in action and

very palpitate. My nerves also

became weak and I was unable to

be in bed in a languishing condition,

losing strength and weight. In

this condition I began using Dr.

Chase's Nerve Food, and am cured.

Had I not obtained this medicine

I would now be in the box with the

roof over my nose. At eighty-four I

have as much energy as when I was

writing this letter so that old people

may know that this medicine is

strong and by using this great medi-

cine." 50c a box, 5 for \$2.50. For

sale by all dealers.

Maid—Thieves got into a house in

this street last night and stole all the

silver.

Mistress—What stupid people the

leaves doors unlocked! Where house

was it?"

Maid—"Why, that is our house!"

Maid—"Yes, mamam, but I did not

want to frighten you."

TWO WOMEN
SAVED FROM
OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their

Own Stories Here Told.

Edmonton, Alberta, Can. "I think

it is no more than right for me to thank

you for what your kind advice and Lydia

E. Pinkham's Vegetable Compound have

done for me.

"When I wrote to you some time ago I

was a very sick woman suffering from

female troubles. I had gotten inflam-

mation and could not walk or stand

at distance. At last I was confined to my

bed, and the doctor said I would have

to go through an operation, but this

refused to do. A friend advised me to

use Lydia E. Pinkham's Vegetable Compound,

and after using three bottles of it, I

feel like a new woman and I most heartily

recommend your medicine to all women

who suffer from female troubles. I have

also taken Lydia E. Pinkham's Liver

Pills, and think they are fine. I will

never be without the medicine in the

house."—MRS. FRANK ELMLEY, 908 Colum-

bia Avenue, Edmonton, Alberta.

The Other Case.

Beatrice, Neb.—"Just after my mar-

riage my left side began to pain me

and the pain got so severe at times that I

suffered terribly with it. I visited three

doctors and each one would operate on

me but I would not consent to an opera-

tion. I heard of the good Lydia E. Pink-

ham's Vegetable Compound was

being for others and I used several bot-

tles of it with the result that I haven't

been bothered with my side since then.

I am in good health and have two lit-

tles."—MRS. R.B. CHILDS, Beatrice, Neb.

Small Men in War

Soldiers of Small Stature Have Advan-

tages Over Those Who Are

Tall

It is no new discovery which an

English physician has made in an-

nouncing that the short man makes a

better fighter than the tall man.

The short or small man is not

braver or more skilful and aggressive

as a rule than the tall or large man.

He is simply apt to be tougher and

more enduring, just as a small and

climby knight-errant is usually harder

than the large knight-errant and

horse. He can resist disease better

and he can better endure the trials

and hardships of the march or the

trench or the battle.

The small man has another advan-

tage in war which was greater, per-

haps, in the days when shooting was

more individualistic than it is now

through the use of machine guns and

artillery for wholesale destruction.

He offers a smaller mark. Galton re-

SPECIAL ATTENTION TO DINING SERVICE

The following is from an exchange: "There was an old man and he had a wooden leg, he had no money and he wouldn't beg; he had a piece of pipe and a twelve-inch board. Says he to himself, 'I'll make me a Ford.' A gallon of gas and a quart of oil, a piece of barbed wire to make a coil, four big spools and an old milk can, he hammered together and the darn thing ran.

"Begorra," observed the doc, "making love to a widow is a square thing to do. Before ye begin ye know what the end will be and yit ye're scared that maybe something'll happen. Ye make up your mind to use thyrin' an' this ye discover ye've gone so far ye can't back out. It's full of disappointments an' hopes, an' in the end comes the greatest surprise or all within just what ye expected happens."

THE INTERNATIONAL Coal and Coke Company, Ltd.

At Coleman, Alberta.

J. Handley, Blairmore's cash grocer, has decided to allow his business to expand and has taken over the entire Budd block between Eighth and Ninth Avenues. We understand that he intends opening up a dry goods department, which will be looked after by Miss A. Niven, of Frank, formerly with T. M. Burgess, Bellevue.

Rev. Mr. Galbraith arrived last week to take charge of the Presbyterian mission work between Blairmore and Passburg. Henceforth Mr. Galbraith will preach at Blairmore on Sunday mornings and at Passburg at night. He occupied the pulpit in Blairmore on Sunday morning last for the first time.

OF LOCAL AND GENERAL INTEREST

It is time Blairmore had a clean-up day.

H. C. Moore, solicitor, has offices in the Budd block.

It. B. Bartlett, of Fort George, is visiting his brother here for a few weeks.

The special war tax on all letters and post cards came into effect yesterday.

W. Allen has invested in a seaplane, for use on the Old Man River.

Mrs. Kidd's maternity home, Box 95 Phone 151. Wedding cakes decorated.

Dr. and Mrs. Mackenzie, of Bellevue, returned to town on Monday afternoon.

The Ford Motor Company is said to be turning out cars at the rate of 125 a day.

Fire recently broke out in the Imperial hotel at Vulcan. Very little damage was done.

F. Day, of Willowdale, has been chosen by the Conservatives to contest Red Deer riding against Dr. Michael Clark.

Gordon Gilchrist, of Zurich, was a Blairmore visitor last week and attended the funeral of the late Thomas McDonnell.

The sister ship of the German commerce raider Prinz Eitel Friedrich has entered the harbor of Newport News and may return there.

Mrs. Hugh Aston and Mrs. C. R. Voelker will take part in the vocal programme at the Red Cross concert tonight. Both are very popular.

The old barracks building of the R.N.W.M.P. at Medicine Hat, one of the oldest landmarks of the wild and woolly west, was burned to the ground on Friday.

An "at home" was held at the home of Mr. and Mrs. W. S. Hobkirk on Wednesday afternoon of this week, in honor of their guest, Mrs. Hugh Aston, of Macleod.

Should work alright in Blairmore: At Greenwood anyone wishing the use of a vacant lot for gardening purposes can obtain same on applying to the town council.

Despatches from Ottawa, says an exchange, state that the war tax to be added to letters mailed will not apply to letters mailed to the soldiers now serving with the Canadian army.

FOR SALE—One hundred and sixty acres first-class grazing land between Coleman and Blairmore. Contains considerable forest area, standing timber estimated at worth \$4,000. Suitable for general ranching. Apply to The Enterprise.

Germany has announced her intention to compensate the owners of the United States ship William P. Frye, sank on the high seas with her cargo of wheat by the commerce raider Prinz Eitel Friedrich. The amount of the claim is \$228,050.54.

The health authorities have declared war upon the printers' towel, but in its declaration it does not specify whether it is making war on the 1914 towel or the 1915 towel. In important matters of this kind the authorities should be more definite.—Calgary Alberta.

The sixth annual convention of the Alberta educational association was concluded at Calgary on Thursday morning last. The following officers for the ensuing year were elected: Honorary president, Hon. J. R. Boyle, minister of education; president, W. R. Hay, Medicine Hat; first vice-president, Dr. Coffin, Calgary; second vice-president, A. K. Gibson, M.A., Red Deer. Secondary school section: President, E. L. Fuller, B.A., Edmonton; secretary, M. H. Long, B.A., Edmonton. Senior public school section: President, J. T. Gaylor, Medicine Hat; secretary, Mr. Dyer, Calgary; secretary-treasurer, N. E. Garraway, Lacombe.

Miss Nora Lees returned Sunday from a visit to Lethbridge.

A. Houston has opened a photographic studio at the Cosmopolitan hotel.

Dr. T. C. Bruce, dentist, spent several days practicing in town this week.

Some of the hotels in The Pass have decided to introduce the tent beer.

Dr. A. Ross, of Hillcrest, lost his walking ticket, and is now sporting around in a Ford auto.

W. L. Hamilton, manager of the Leitch Collieries at Passburg, was in town on Wednesday.

Rev. J. F. Hunter was called to Nanton, where his mother had passed away on Sunday last.

The old maids' dance at the Cosmopolitan on Friday night was a pleasant affair.

Alex. Cameron, of Coleman, was a visitor to The Metropolitan on Tuesday.

FOR SALE—Eggs for hatching—White Leghorns—13 for \$1.00. Apply to W. Gower, Coleman.

In 1900 the Colliery officials will be supplying the oil-burning super-dreadnoughts of Italy and Great Britain.

Rev. J. F. Hunter returned from Nanton on Thursday, where he had been attending the burial of his mother.

Last week we received a large number of new subscriptions to The Enterprise, eight of which were from the town of Coleman.

Rev. A. H. Denoon, of Lethbridge, officiated at the anniversary services at the Institutional church, Coleman, on Sunday last.

The Blairmore liquor store has just undergone a complete renovation, and is now one of the most attractive business establishments in The Pass.

John Brown, late manager of the Hillcrest Collieries, left last week with his family for Lethbridge, where they are spending a few days with friends.

The decree prohibiting the dancing of the tango and other similar dances in Paris, is being prepared by the municipal authorities. It will be issued shortly and enforced energetically.

A German submarine has sent an American defenceless relief ship to the bottom. The ship carried relief for the people of Belgium, subscribed by people of the American republic.

The British government has decided against universal prohibition, but the new drink regulations have not yet been finally settled. It is likely that the sale of wines and spirits either throughout the entire country or throughout the military and munitions manufacturing areas will be prohibited.

The concert and dance at the opera house tonight promises to be an unusual attraction. Already several hundred tickets have been sold and it is almost certain that seating space will be at a premium. Special interest will be taken in the after-party. Dancing will commence about 9.30, the music to be furnished by a new Coleman orchestra, which will use but the very latest dance music.

Rev. J. K. King, minister in charge of the Nashua Methodist circuit, New Brunswick, has been found guilty of uttering unpatriotic and un-British sentiments in reference to the European war and the part taken in it by Great Britain and Canada. This is one of those extreme men that we find in almost every cause. His theory is that the Christian should never fight, if struck on one cheek he should stick out the other for a similar crack—good for evil is his theory. He is a man of no account, that plainly tells us to put on our whole armor and fight for the right with all your might.

It is said that another restaurant is to be opened up in Blairmore shortly.

Jim Burrows left for his fruit farm at Columbia Gardens, P.C., on Thursday morning.

The man who marries for money soon begins to look upon his wife's morning and evening kiss as an income tax.

The Alberta Farmers Co-Operative elevator at Sedgwick was destroyed by fire on Saturday last, loss estimated at \$8,000.

For job printing of every description phone to or call at The Enterprise, Blairmore. Office hours: 1 a. m. to 12 p. m.

Mrs. A. Huston arrived from Calgary on Wednesday morning to join her husband, who has opened a photographic studio here.

Mr. Montgomery, agent for the Ford Auto Co., was up from Pincher Creek the early part of the week, and we understand has made sale of several cars.

"Shorty" Lyons, at Walla Walla, Wash., has confessed to the murder of C.P.R. brakeman Roy Blair, at Morley, on July 30, 1912. The confession was made to the warden of the state penitentiary.

The latest epidemic in Saskatchewan is incendiarism, and quite a number of hotels have succumbed to the plague since the government announced their intention to cut out the booze business.

FARM LANDS FOR SALE—160 acres N. W. Quarter Section 3, Township 7, Range 2, four miles south-west of Lethbridge. \$12.00 per acre. Terms reasonable. Apply to J. H. Farmer.

A "hard times" dance is to be held at Hillcrest on Monday night next, under the auspices of the Hillcrest Dramatic Society. The Coleman orchestra will be in attendance. Prizes will be awarded for the best waltzing couple.

Even Michel Roussé seems to be hesitating for temperance. On Tuesday we noticed a poster in his liquor store window, which read thus: "Which will you vote for, the bottle or the boy?" Mike says he'll vote for boy every time.

Work of grading Victoria Street is progressing well under the superintendence of D. A. Sinclair and Chief of Police McLeod. We will soon extend an invitation to outside people to inspect our up-to-date business thoroughfare.

We learn that the settlers on the flat near the river at Bellevue have been ordered to go west, as the West Canadian Collieries purpose extending their track yards. Quite a number of them are purchasing land at Lime City, where they will erect cottages.

A French steamer and two British steamers were torpedoed by the enemy submarines during the week, but all made their way to port safely, without even loss of life. The Germans must have discovered that the ships carried no babies, otherwise they would have finished the job.

A repetition of last year's reeling disaster, in which 175 hunters perished on the ice floes off the Newfoundland coast, was narrowly averted last week, when 150 men from the steamer Neptune were rescued from the ice by the Florizel. The hunters had been caught in a blizzard and were adrift on the floes all night.

STRAIGHT AT IT

There is no use of our "beating around the bush." We might as well cut it out at first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by all dealers.

A Piece of Phonetic Spelling

The Truro News says: "A British soldier is in London hospital and a sterna bullet was found embedded in the neck part of his hair. He walks a mile after he was wounded."

A Dog Team in Truro From Alaska

We neglected to mention before that a unique looking team arrived in Truro from Alaska on Saturday noon, the 2nd inst.

This rig consisted of a miniature wagon drawn by three dogs in tandem. The driver was a middle aged man weighing some 100 lbs, and the dogs trotted along with wagon and man in good style.

The leader was a pure-bred huskie, and was as brave as a meat-axe. The sight of a strange dog, approaching this old looking rig, made him wild, and if he could have cleared his throat he would have made short work of anything in the dog line in Truro—even "Screech Owl" would have had no chance before such a blood-thirsty Alaskan huskie.

The driver, who said he had driven from Great Village that morning, has been months on the route from Alaska; and, dodging through many of the states of the adjoining Republic, had traveled some 26,000 miles.

He arrived in Halifax by July 1st, and understood that he gets a prize of \$6,000. The poor dogs looked tired, and whenever a halt was made they were down on the ground and ready for a sleep. As soon as the Alaskan huskie, Halifax and gets his money we hope the S. P. C. will stop this dog trot and confiscate the whole truck. The huskie we'd like to own long enough to start out against some of the worthless hounds in Truro, that have paid no dog-tax and are not worth their salt.—Truro News.

The Cosmopolitan Watchman

The last faint twinkle now goes out 'Up in the hotel attic; The hoodlums, in merry rout, Speed off with steps erratic.

The roofs shower down the feathering snow, The street cracks on the steps; The street lights wag and glimmer low, In the storm or fair Blairmore's people.

The houses all stand dark and still, The lobbies and bars are deserted; A body may now weed along as he will, With night and his fancies diverted.

No signifying eye now looks this way, No scandalous tongue is dissembling; The heart that has slept no bedchamber day, May now snore away with trembling.

Dear Night! thou too to each base end, The good a blessing prove thee; They tell me thou art no man's friend; But O, sweet Night, I love thee.

MARY.

Wise Doctor Gave Good Hair-Growing Recipe

Philadelphia, April 7.—Interesting features of the ancient Hebrew laws were detailed by Professor Candern M. Cohen of Allegheny College in a lecture here today on "Moses and His Times." Recent discoveries by archaeologists, he declared, have confirmed the biblical account of Moses.

"Many of the laws of Moses are copies of more ancient laws," said Dr. Cohen, "but the nucleus of his law was so valuable that it found it has been built the laws of the civilized world today. One of the old Mosaic laws fixed the salary of a surgeon. If he succeeded in an operation he received a certain sum; if he failed his right arm was cut off."

Under the same law, the speaker said, a contractor was put to death in case a building he had constructed fell and killed some one, or if a burglary was committed in a town, the mayor and council were held responsible for it. "Moses could have written his laws in any one of six languages," Dr. Cohen added. "The doctors of the day were as wise as ours; they wrote their prescriptions in an ancient tongue that nobody else could understand. I've seen prescriptions for making the hair grow. They were printed on papyrus and the fact that it was a good one was proved by a note written beside it in another hand: 'It does the work, too.'"

T. H. Duncan, proprietor of the Passburg hotel, was in town on Monday.

LOOK TO YOUR PLUMBING

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.
